

AMENDMENTS TO THE SPECIFICATION

Please amend the paragraph that begins on page 2, line 4 of the specification to read as follows:

The subject-matter of the invention is thus a container ~~according to claim 1~~ usable for this purpose which can be designed as vial, ampoule or disposable syringe as well as a set of several such containers ~~according to claim 9~~.

Please amend the paragraph that begins on page 2, line 7 of the specification to read as follows:

Advantageous embodiments of the invention are subject-matter of the claims ~~dependent upon claim 1~~.

Please amend the paragraph that begins on page 2, line 17 of the specification to read as follows:

Also US ~~3 965 920~~ 3 955 920 shows a beverage bottle with a stuck on, in some cases multi-layered jacket consisting of synthetic material which serves the purpose of protecting the bottle against breakage and, in case of breakage, to hold together the fragments. In contrast to this, US 5 261 546 shows now a glass bottle for pharmaceutical liquids. However, in significant distinction to the container according to the present invention, this has a jacket with an opening serving especially for the exact control of the contents.
